## ARENTZ ANNOUNCES CANDIDACY FOR SENATOR

NEVADA LEGISLATOR  
ASPIRES TO TOGA AT  
THE NEXT ELECTION

"The solicitation of my friends all over the state, I have definitely decided to be a candidate for the United States senate."

With the above statement, contained in a telegram to the Reno Gazette, Samuel S. Arentz, congressman from Nevada, announced his candidacy for the senate yesterday, subject to the primaries of next fall.

Mr. Arentz has been considering the step for some time and it was at the earnest solicitation of his many friends that he consented to make the announcement. His is the first announcement that has been made for the Republican nomination for the senate from Nevada and without doubt other good men will oppose him at the primaries.

Mr. Arentz has been extremely active, especially in legislation affecting his home state, during his congressional career, and Republican leaders of Nevada appear to be highly gratified with his efforts. Unlike many new members of the lower house, the Nevada representative has been heard from constantly in connection with legislative work. In recognition of an ambition to serve, he has been appointed on a number of important house committees.

Samuel S. Arentz was not known in politics until he became a candidate for congress on the Republican ticket last fall. He conducted a successful campaign, defeating Charles H. Evans, his opponent and incumbent, winning by a plurality of 4,000 out of a total of approximately 25,000 cast for all four candidates.

Mr. Arentz's home is at Simpson, Lyon county. For some time he was interested in dry farming and maintained a ranch in Mason valley. He is an engineer of wide experience, having been engaged in mining in Clark county and other sections of the state. He constructed the Copper Belt railroad in Lyon county.

Before coming to Nevada, he was engaged in mining and railroad engineering in the Rocky Mountain region. During the world war he joined a company of engineers and went overseas as a captain. His war record is credited with having assisted materially in the log vote he carried in the Republican landslide of last year.

CONVICT TAKES  
SIX WITH HIM  
IN JAIL BREAK

LITTLE ROCK, Dec. 9.—Tom Slaughter, the notorious bandit, under death sentence for killing a deputy guard at the state prison farm at Tucker, escaped from the penitentiary here early today, taking six other convicts with him. For five hours prior to his escape, Slaughter ruled the penitentiary walls like a czar, and offered their liberty to all convicts who wanted it. Five who fled with Slaughter were negroes under death sentence for participation in the race riots of 1919. Someone smuggled a revolver to Slaughter in his death cell, and thus armed he outwitted the trusty guards assigned to watch him and took complete charge of the penitentiary.

Warden Dempsey, his wife, son and daughters were locked in the death cell by the bandit. Slaughter escaped in Mrs. Dempsey's automobile which was standing in the prison yard. Later this morning Slaughter passed through Benton, about 25 miles south of Little Rock, and engaged in a gun fight with the city marshal, who had been notified of the escape and was on the lookout.

ROSS WAS NOT  
IN FRAME UP  
IN TERKLA CASE

In the issue of the Bonanza of Wednesday evening concerning the verdict in the Terkla case where the defendant was found guilty of violating the Volstead Act, the Bonanza mentioned in a meeting which was held in the district attorney's office and wherein H. C. Offerman, who has conducted a paint store on Main street, but which now has reverted to the original owner W. B. Somerville, and Sheridan Ross were to enter Terkla's place and call for a drink and when in the act of throwing down their "gator" Chief of Police Cochran and Deputy Sheriff N. L. Schade, "the sleuth of the sheriff's office" were to rush in and make the arrest, the Bonanza statement was in error regarding Sheridan Ross, as no evidence connected him with the frame up, and the Bonanza does not want to do an injustice to Mr. Ross who has lived in Tonopah for many years. Mr. Ross says that he dropped in to Mr. Offerman's place of business, and asked him if he cared for a drink, and he replied, "Yes," and they walked down to Terkla's place and were in the act of passing the drinks to their lips when Cochran and Schade appeared and spilled the drinks. Ross was not a part to the frame-up, but Offerman was according to the evidence placed before the jury. The Bonanza is only to glad to place Mr. Ross right before the public in which he has lived for many years, and is glad to know that he was not a stool-pigeon that would stoop so low as to become a party in a frame-up against any man.

OPEN LETTER  
TO CITY BY  
FIRE ADJUSTER

Statements made to me by responsible citizens of Tonopah in connection with the fire of November 27th, 1921, prompt this letter to pass along to your honorable bodies for their criticism of the Telephone service and the Police and Fire Department of your town.

Tonopah, with its rows of frame structures, many of them of flimsy construction, with inflammable roofs, stove pipe or other metallic chimneys, irregular and unpaved streets, steep hills with mine dumps here and there, and with high winds at times, has an ever-present conflagration hazard that should occupy the attention of those in authority and since eternal vigilance is the price of your safety, your police and fire departments should be ever on the alert, every piece of fire-fighting apparatus known to be in perfect condition, and your auxiliary high pressure supply available for fire service WITH NO ALIBI FOR FAILURE.

At night especially you are dependent for fire alarm on the vigilance of your citizens and police of-

OVERTURNS IN  
CAR AND MEETS  
INSTANT DEATH

News has reached Tonopah of the death on Wednesday of Frank Baird, a former resident of Goldfield, Lida and Tonopah, when he was caught beneath his Dodge car and his neck broken.

The accident occurred when Baird, accompanied by Sam Snyder and Cecil Douglas, was proceeding down a hill-road about six miles from Lida. The car was not traveling at an excessive rate of speed and it is thought that the steering gear broke. Apparently the car left the road at a slight bump, and Baird was unable to regain control before it turned over.

Snyder was pinned under the car and remained in that position for about two hours before help summoned by Douglas was secured.

Baird and his brother Ben were interested with M. G. Myrtle, former county commissioner, in mining at Cocomungo, and were temporarily employed at the Log Springs placer workings, where Baird's body was taken after the accident.

Baird is survived by his brother at Cocomungo, his father in Topeka, Kan., a sister in Sunnyside, Utah, and another brother in Kansas. It is expected that the body will be buried in Goldfield.
